About Me

Motivated junior full stack developer with an NQF Level 5 certification and hands-on experience in website development, digital design, photography, videography, and content editing. Tafadzwa combines technical skill with a creative eye, making him well suited to a print, branding, and design environment where attention to detail and strong visual presentation are essential.

Experience

Development and Creative Intern

Comfort Shooting

2025 to 2026

Supported website, content, and creative production for client projects. Responsibilities included building and optimising Wix Studio websites, applying basic SEO best practices, creating marketing graphics, assisting with photography and videography, editing promotional content, and managing client notifications across Meta Business Suite and Wix.
